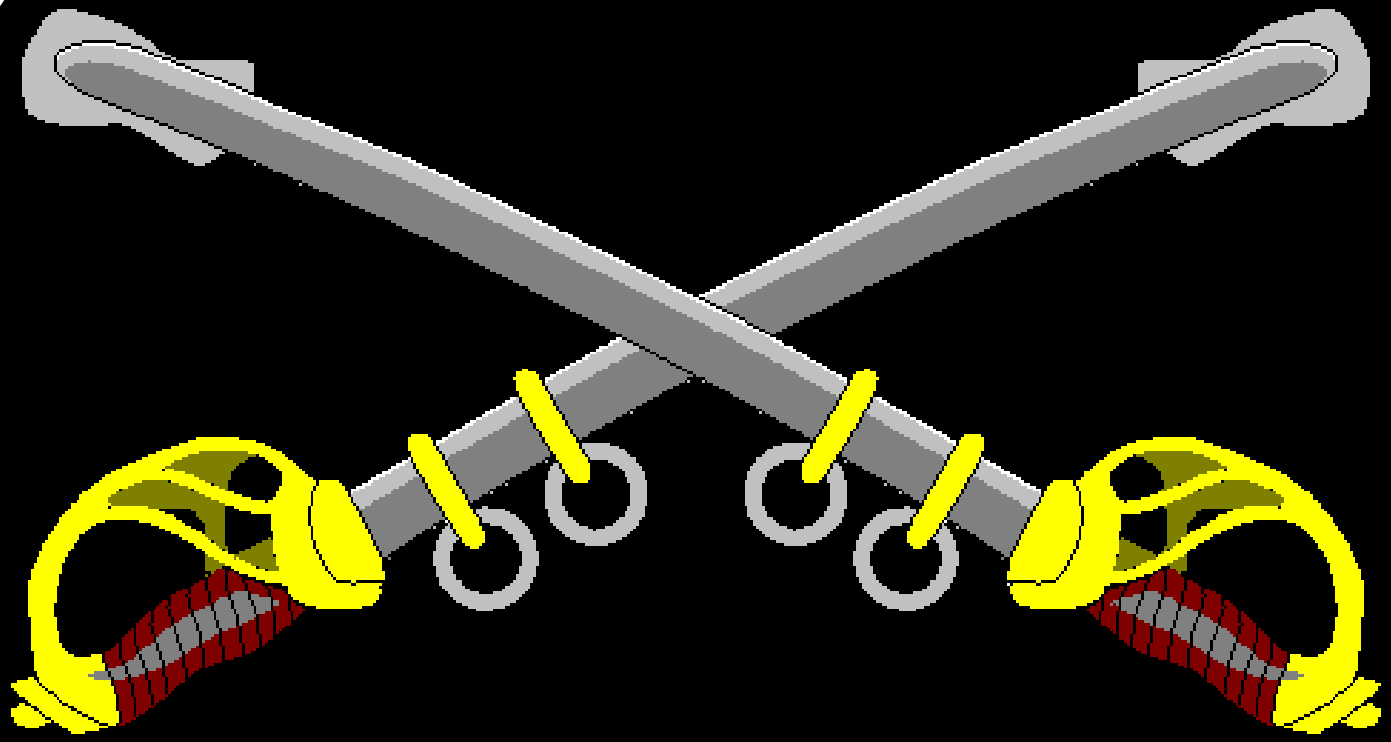
CAVALRY SCOUT CLUB



FTX 1

The Troop started FTX 1 at the North Dock staging area. They conducted a PMCS and PCI.

Platoon Leaders issued the convoy briefing and the Troop departed by platoons.

The first destination was the Troop’s Tactical Assembly Area. The platoons conducted TLPs for a Tactical Road

The Troop worked mounted land navigation and vehicle spacing along the route.

Actions at a short halt included a Herringbone formation.

The platoons assumed a herringbone formation every time they encountered an obstacle – of which there were

Bypasses and alternate routes were found to continue the mission around the stubborn obstacles. Information on the route was reported to higher.

The previous day’s rain left much of the training area under water.

Troopers practiced driving off road and around or through water soaked routes.

After the tactical road march, the platoons returned to the TAA.

FTX 1: Complete.

The Troop is preparing for FTX 2: Area and Route Recon on 23-24 OCT 04.
